

October 15, 2013

We, the Zion Township Board, are in full support of moving forward to research the concept of working together to infuse a Zion-Benton Character Initiative. We also agree that the best vehicle for this is the Coalition for Healthy Communities and are hoping that they will take the lead in initiating this project. We will do what we can to support the efforts, including creating our own matrix for being an Organization of Character and being involved in the decision as to what the community core values are as well as living by the values that are chosen.

Cheri Neal
Chairman
Zion Township Board of Trustees
